

If any part of your salary is funded externally during your employment with NSU and that funding is reduced or eliminated, your work hours, responsibilities, or salary may be adjusted accordingly. This may include a reduction in hours, reassignment of duties, or a change in your employment status, which may include termination, depending on the extent and availability of remaining funding. Additionally, if there is no work associated with the funding, even if the funding itself is still available, you may be subject to release from your position.
